## **Players will tee off at the golf course selected marker.**

**SCRAMBLE FORMAT** : Each player hits his or her tee shot regardless if playing with 3 , 4, or in some cases 5 players. The team then selects the ball in the most favorable position and marks the site with a tee/ball marker. **The best ball selected cannot be lifted from its spot and should be played 1<sup>st</sup>.** Other not selected as best ball must be picked up/not played. Each player **must** then hits the next shot no more than 2 club lengths of the marked site, **but no closer to the hole.** This procedure is repeated until the ball is on the green.

**On the green**, the selected ball being put in play is marked with a coin. Each player attempts the putt from within six inches of the coin/maker, but no closer to the hole. No ball should be holed out until all players have attempted the make the previous putt. Must play only your ball, do not putt out someone elses ball

**BUNKERS** – If a selected ball is in a trap, the site is marked with a tee. Each player then hits the sand shot from within 6 inches of the ball, but no closer to the hole. The shot must be taken from within the bunker and the site may be smoothed out ***only with a foot or club*** before each shot. Do not use a rake(unless you have a detachable/portable one on end of a golf club

### **THREESOMES/Fivesomes –**

If your team is short a player, have one player on each hole, hit an extra ball from start to finish. Rotate this honor among the team players on a hole by hole basis. If team has five players all 5 players hit the ball (its ok to only do 4 putts to score-you can rotate who does not putt if you wish
